AFB F17 - Ronneby

- 2 x Gripen Sqn
- Helicopter Sqn

I wish to give you this:

The big picture over where the Swedish Air Force is, when it comes to thinking about the near future (10-20 years).

If I can give you that I hope that you can come up with the technological solutions.

# First - The Context

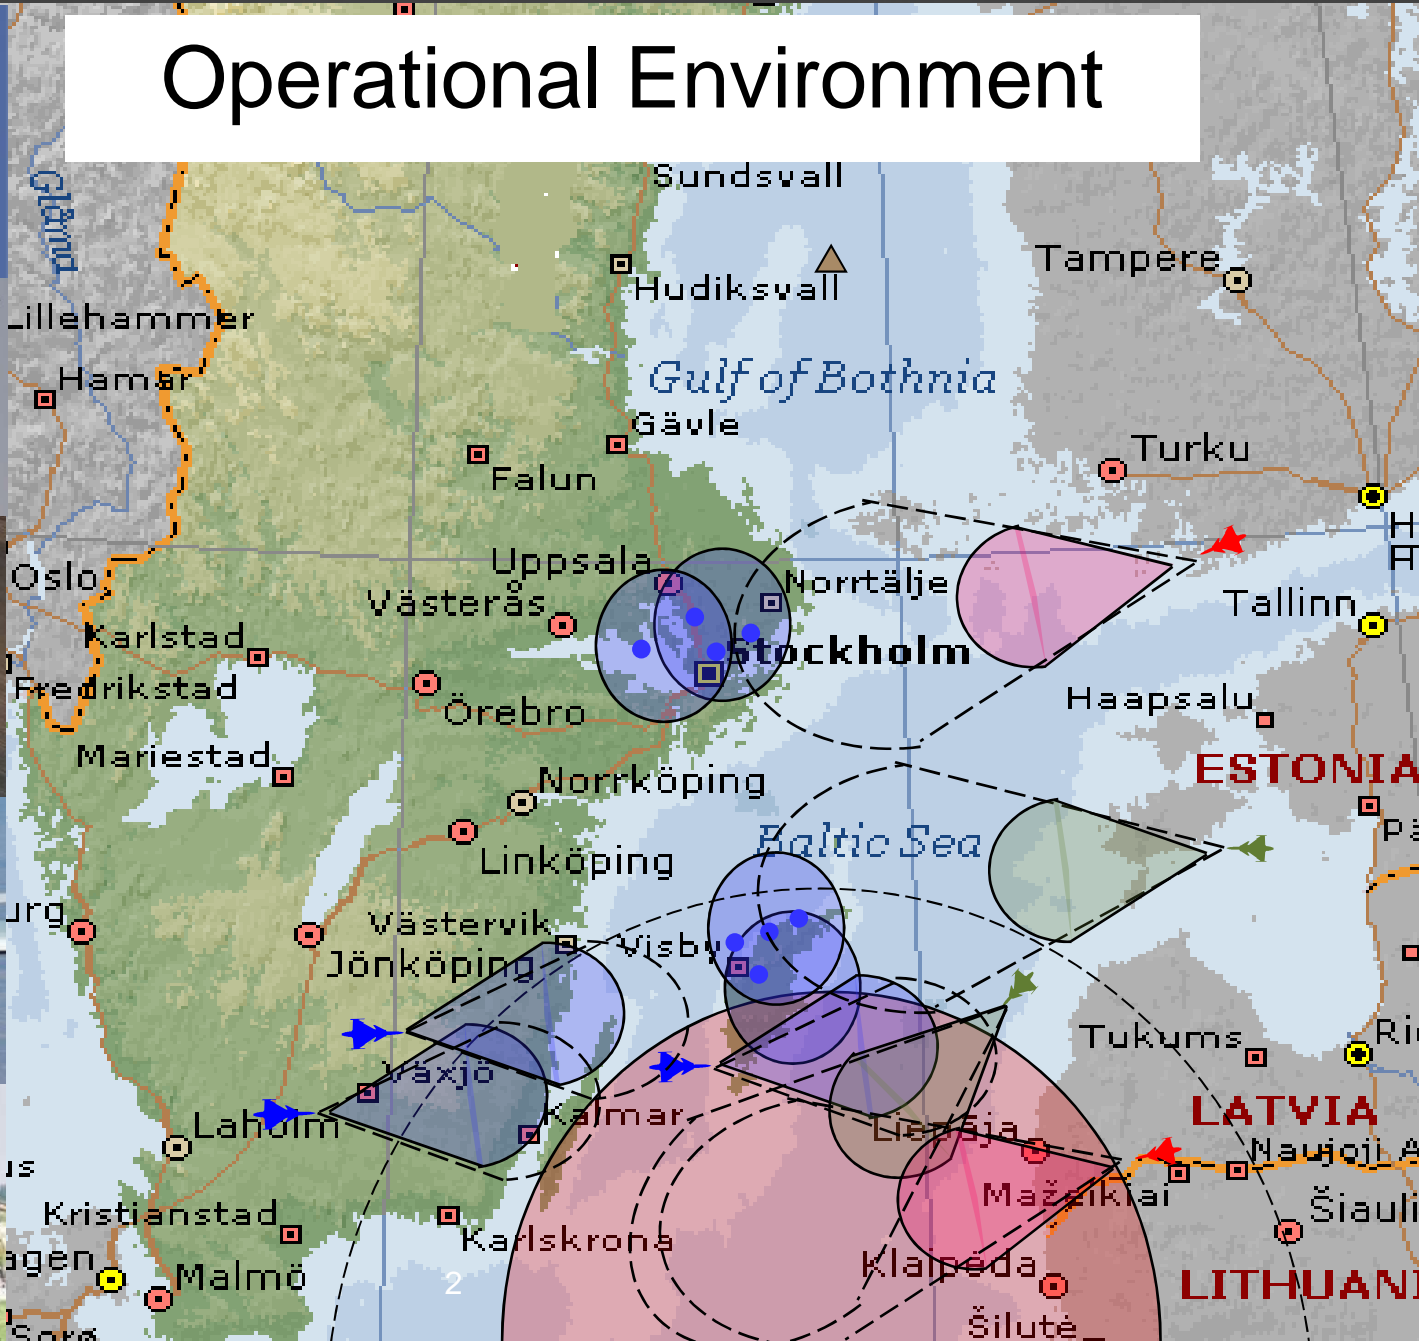

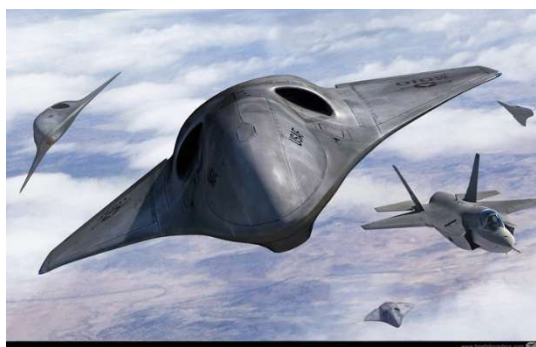

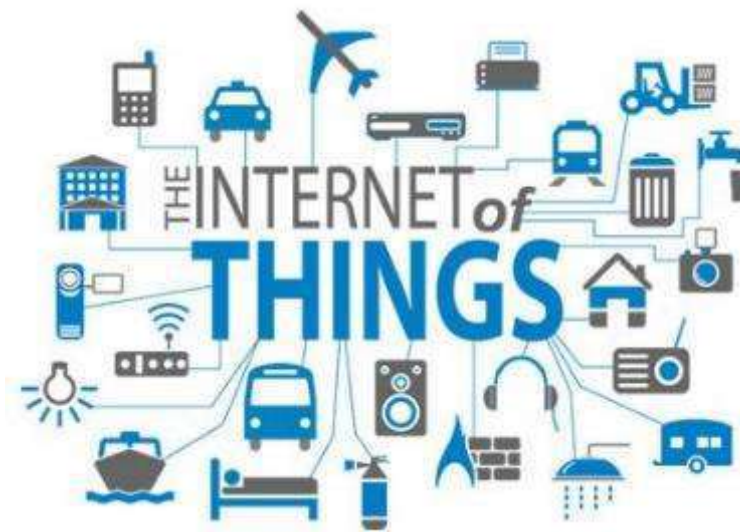

# The geostrategic situation

# Operational Environment

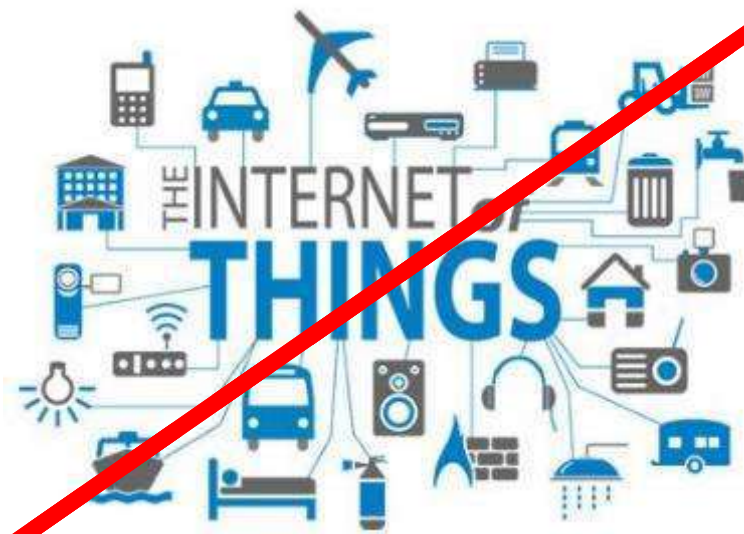

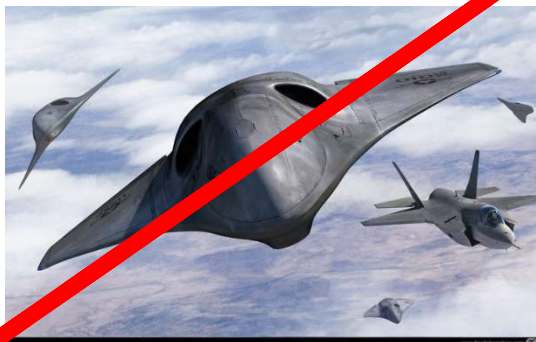

# Demands on Swedish Air Force and Air Power

Plan for the worst  
Hope for the best

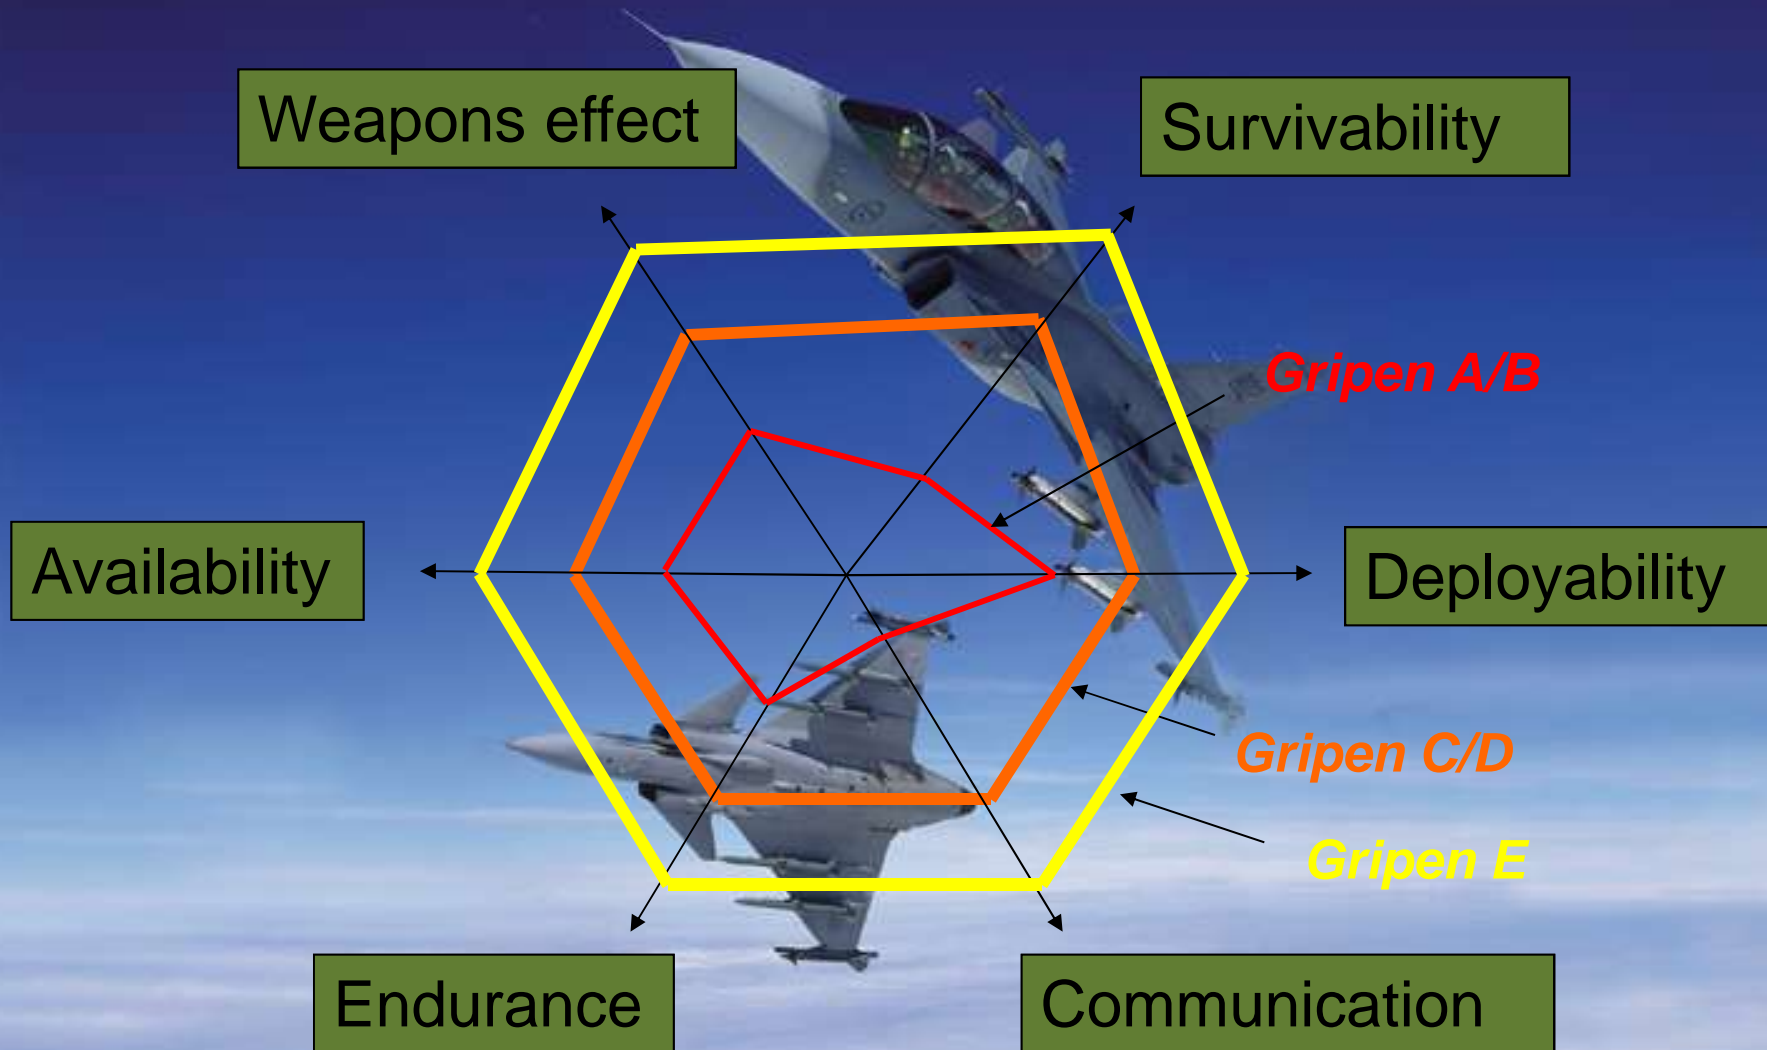

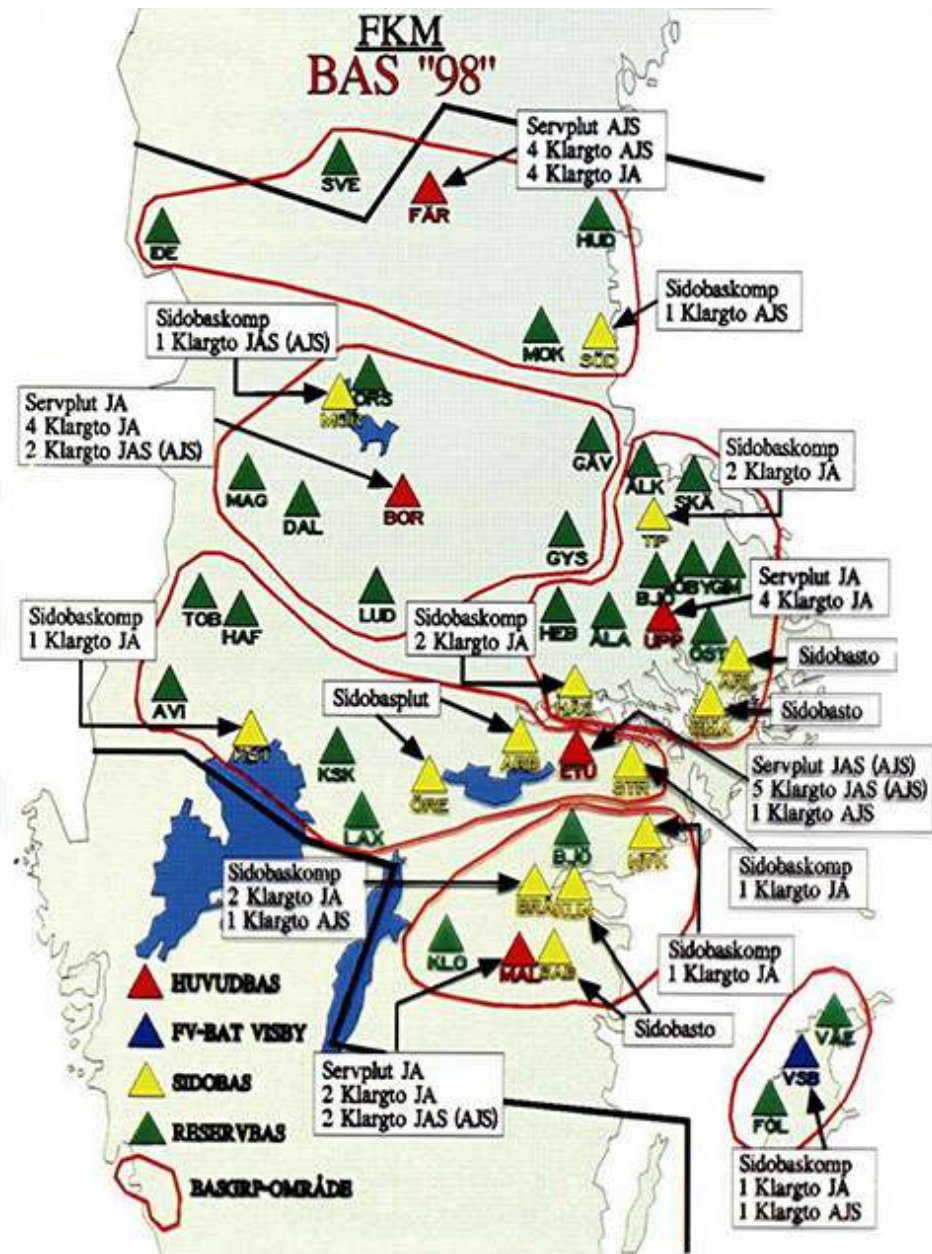

# What does this mean for the Swedish Air Force the upcoming years?

- Skilled and autonomous personnel
- Robustness
- Balanced development
- Cooperation
- Innovation
- National and International environment

A balanced Air Force aiming at tactical superiority

# Gripen Development Path

SORT OF

I hope I gave you this:

The big picture over where the Swedish Air Force is, when it comes to thinking about the near future (10-20 years).

Thank You!
